

Planning Commission Agenda Item

Date: December 09, 2020

Item No: 28.

TO: Planning Commission

FROM: Marc Jordan, Director Land Development & Community Services
Prepared By: Robert Eastman

SUBJECT: SUP-46-2020 2595 NORTH LAS VEGAS BOULEVARD CENTER (Public Hearing). Applicant: Sean Nourani Architect. Request: A special use permit in a C-2 (General Commercial District) to allow a mini-warehousing establishment. Location: 2595 Las Vegas Boulevard North.

RECOMMENDATION: APPROVAL WITH CONDITIONS

PROJECT DESCRIPTION: (APN 139-133-01-001)

The applicant is requesting a special use permit to allow a mini-storage facility located at 2595 Las Vegas Boulevard North. The applicant is proposing to build an approximate 43,800 square foot self-storage facility. The proposed hours of operation will be Monday thru Friday 7:00 a.m. to 7:00 p.m. and Saturday and Sunday 8:00 a.m. to 5:00 p.m.

Fire:	See attached memorandum.
Clark County School District:	No Comment.
Clark County Department of Aviation:	No Comment.
Economic Development:	See attached memorandum.

ANALYSIS

The applicant is requesting Planning Commission approval of a special use permit to allow a mini warehousing facility located at 2595 Las Vegas Boulevard North. The applicant is proposing to develop a138 units of mini-storage. The operating hours will be Monday thru Friday 7:00 a.m. to 7:00 p.m. and Saturday and Sunday 8:00 a.m. to 5:00 p.m. The proposed mini-warehousing facility is one of three uses proposed on the site. The other uses include an auto service facility and a drive-thru vehicle washing facility.

The facility will have 138 outdoor storage units, 122 units are (10x10) and 16 units are (10x20). The applicant is also proposing to have six (6) RV spaces (20x40) on the site as shown on the site plan. The applicant is not proposing the rental of trucks at this site.

The proposed site has two (2) existing access drives and is proposing an access easement. One access is provided from Las Vegas Boulevard North and is a shared access for all three uses. The Las Vegas Boulevard access point appears to be the principal egress for the development. The second access is a gated access from Cartier Avenue. Cartier Avenue is a residential street to the west of the proposed site. The City is recommending that this access point be closed. The applicant should provide a cul-de-sac for Cartier Avenue on their property and restrict access to the adjacent residential properties by placing an emergency access gate along Cartier Avenue. The third proposed access point is an easement at the northeast corner of the site that connects to the existing mini-storage to the east.

The sidewalk along Las Vegas Boulevard is existing and will not be modified by the proposed development. An existing sewer line is located within the Cartier Avenue right-of-way. The easement continues through the property in a straight line to Las Vegas Boulevard. This easement creates some development challenges for the site. Because of the easement, the applicant is proposing between 24 and 41 feet of landscaping along Las Vegas Boulevard. Additionally, the car wash will be set at a slight angle from the street to help accommodate the easement. The applicant's site plan also has a twenty-five (25) foot landscape buffer adjacent to the existing residential to the north and west of the property. The applicant appears to be in compliance with landscaping requirements of code.

Parking is calculated for mini warehousing as one (1) space for every fifty (50) units plus five (5) customer spaces and two (2) spaces for the on-site manager. The applicant has proposed 138 units and will require a total of ten (10) parking spaces per code. The current site has approximately twenty (20) parking spaces and is in compliance with the parking requirements.

The applicant has provided elevations of the proposed mini-storage facility. The applicant is providing a stucco building painted a light tan with darker tan columns and a red accent band along the top of the building. The buildings contain rollup doors for the individual units. The applicant also provided an elevation for the trash enclosure that appears to be the same colors and materials as the principal buildings. The applicant will be required to provide a decorative masonry wall around the proposed outside storage units, which will be reviewed with the building permit for the mini-warehouse facility. The architecture and colors appear to be in compliance with the commercial design standards.

Requirements for Approval of a Special Use Permit

In accordance with the Zoning Ordinance, the Planning Commission may, by motion, grant a special use permit if the Planning Commission finds, from the evidence presented, that all of the following facts exist:

1. The proposed use is consistent with the Comprehensive Master Plan and all applicable provisions of this Code and applicable State and Federal regulations;
2. The proposed use is consistent with the purpose and intent of the zoning district in which it is located and any applicable use-specific standards and criteria in Chapter 17.20 of this Code;
3. The proposed use is compatible with adjacent uses in terms of scale, site design, and operating characteristics (such as, but not limited to, hours of operation, traffic generation, lighting, noise, odor, dust, and other external impacts);
4. Any significant adverse impacts anticipated to result from the use will be mitigated or offset to the maximum extent practicable; and
5. Facilities and services (including sewage and waste disposal, water, gas, electricity, police and fire protection, and roads and transportation, as applicable) will be available to serve the subject property while maintaining adequate levels of service for existing development.

Staff has no objections to the proposed use. The proposed use is should not create a negative impact on the surrounding land uses, it is consistent with the C-2, General Commercial District zoning designation and the Downtown Business District, and is compatible with the surrounding area.

CONDITIONS:

Planning and Zoning:

1. Unless expressly authorized through a variance, waiver or another approved method, this development shall comply with all applicable codes and ordinances.

Public Works:

2. All known geologic hazards shall be shown on any preliminary development

plans and civil improvement plans submitted to the City. Subsequent identification of additional hazards may substantially alter development plans.

3. Approval of a drainage study is required prior to submittal of the civil improvement plans. Conformance may require modifications to the site plan.
4. The size and number of access points and their locations are subject to review and approval by the City of North Las Vegas Traffic Engineer and must meet the standards set forth in *North Las Vegas Municipal Code* section 17.24.040. Conformance may require modifications to the site.
5. All driveway geometrics shall be in compliance with the *Uniform Standard Drawings for Public Works' Construction Off-Site Improvements* Drawing Number 222.1 and 225.
6. The property owner is required to grant a roadway easement for commercial driveways.
7. The public street geometrics and thickness of the pavement sections will be determined by the Department of Public Works.
8. All Nevada Energy easements, appurtenances, lines and poles must be shown and shall be located entirely within the perimeter landscape area of this development. Distribution lines, existing or proposed, shall be placed underground if impacted by the proposed development of the parcel or if the pole impedes upon the proper ADA clearances for sidewalk. Under no circumstances will new down guy wires be permitted.
9. Approval of a traffic study is required prior to submittal of the civil improvement plans. Please contact Traffic Engineering at 633-2676 to request a scope. A queuing analysis may be required.
10. Cartier Avenue shall terminate in a cul-de-sac that meets Fire Safety requirements. No access shall be granted from Cartier Avenue to this proposed commercial development with the exception of emergency access only.
