**FISCAL IMPACT:**

AMOUNT: N/A

EXPLANATION: N/A

**ACCOUNT NUMBER:**

N/A

**STAFF COMMENTS AND BACKGROUND INFORMATION:**

The Southern Nevada Water Authority (SNWA) and its member agencies have agreed to revise and amend the water conservation guidelines to limit the use of non-functional turf. To that end, SNWA adopted a resolution on July 18, 2019, in support of the adoption by all local jurisdictions of certain provisions to prevent additional installation of non-functional turf in Southern Nevada in a way that is appropriate and conducive to each member agency's unique land use planning goals.

Although the City's development guidelines have been in agreement with the SNWA water conservation guidelines, this ordinance specifically revises the City's individual water conservation plan to prevent further non-functional turf installations in order to protect, conserve, and enhance the City's water resources. Other elements and features of the North Las Vegas water conservation program remain unchanged.

The Utilities Advisory Board reviewed this measure at its meeting on October 27, 2020 and recommends approval.
