STAFF COMMENTS AND BACKGROUND INFORMATION:

On January 20, 2021, City Council approved a service agreement with Eaton Corporation for the replacement of the blower motor starter at the Water Reclamation Facility (WRF), for a total of \$65,590. Before execution, Eaton Corporation requested a revision to the service agreement to remove the waiver of subrogation clause, as it relates to its worker's compensation insurance policy.

Staff reviewed the request with consideration that this service is necessary to replace the unrepairable starter which has left the Water Reclamation Facility without a secondary blower motor starter. Staff recommends approval of the revised language, in a form approved by the City Attorney's office, understanding the work can only be performed by Eaton Corporation and is critical to the WRF operations.

Staff recommends that the City Council approve the revised service agreement with Eaton Corporation in the not to exceed amount of \$59,590, and an additional supplemental amount not to exceed \$6,000 for the replacement of the blower motor starter at the WRF, for a total of \$ 65,590.
