3. **AMP-10-2020 LONE MOUNTAIN/ALLEN (PUBLIC HEARING). APPLICANT: ACAK IRREVOCABLE TRUST. REQUEST: AN AMENDMENT TO THE COMPREHENSIVE MASTER PLAN TO CHANGE THE LAND USE DESIGNATION FROM RANCH ESTATES TO SINGLE-FAMILY LOW. LOCATION: GENERALLY NORTH OF LONE MOUNTAIN ROAD BETWEEN WILLIS STREET AND KENNY WAY. (APNS 124-31-802-008 THROUGH 124-31-802-011, 124-32-401-005 AND 124-32-401-006)**

Planning Manager Eastman presented Item No. 3, AMP-10-2020, Item No. 4, ZN-15-2020 and Item No. 5, T-MAP-09-2020 together but noted they would be voted on separately. He stated that AMP-10-2020 was an application to amend the Comprehensive Master Plan to change the land use designation from Ranch Estates to Single-Family Low; ZN-15-2020 was a request for a property reclassification to change the zoning designation from the Ranch Estates District to a PUD Planned Unit Development District to allow development of a 53-lot single-family development; and T-MAP-09-2020 was the proposed tentative map for the 53 lot single-family subdivision. He stated the area for development was a narrow strip of the Ranch Estates Preservation Area that connected a much larger section to the west to a smaller section to the east. He added that additional Ranch Estates Preservation Area exists to the north; to the south is an R-1 (Single-Family Low) style development and also to the northeast is an R-1 style development. He stated that staff felt that the area, as a transition area, could support a development that was a hybrid between the Ranch Estates and the R-1 style development. He noted that the site is within the Ranch Estates Rural Preservation Overlay District and that the overlay would take precedence at times. He stated that the area is designated for preservation as part of the Ranch Estates District. He noted that development would need to have the same rural characteristics as the other properties within the rural preservation area.

Manager Eastman stated that the applicant proposed 10,000 square foot lots, where 20,000 square feet was required and that previously, before the 2011 re-write of the code, the minimum Ranch Estates lot size was 15,000 square feet and the majority of the neighborhood was developed using the standard of the 15,000 square-foot lot. He stated that the proposed 10,000 square-foot lots which was a hybrid between the larger Ranch Estates and the R-1 lots. He noted that the PUD represented 53 lots that are 10,000 square feet in size with items that would be unique to blend the site in to the rest of the neighborhood including a proposed equestrian trail along Willis Street, Allen Lane and Lone Mountain Road. He stated the equestrian trail should continue down Lone Mountain Road to connect to the smaller Ranch Estates area to the east of the site. He noted that there was one lot adjacent to a City-owned well facility that meets the 10,000 square-foot lot size and lot width but that it was triangular in shape with a smaller strip along the front and was not compatible with the rest of the development. Staff felt the lot should be removed. He noted that several letters, cards, emails and petitions were received in opposition to the development.

**Stephanie Allen, Kaempfer Crowell, 1980 Festival Plaza Drive, Las Vegas,** represented the applicant and stressed that the intent was not to pull the properties out of the Ranch Estates Rural Preservation Overlay District. She noted that she has been working on the project for more than one year and significant changes were made from the previous proposal and based on neighbor concerns. She provided a description of the property noting there were two parcels in the development. She noted there were struggles due to the shape of the parcels. She stated it was recommended that access be from Lone Mountain Road to retain the rural neighborhood and that the project was created to be compatible with the area and to front on Lone Mountain Road. She noted that the neighbors expressed their concern that the properties remain in the overlay to protect the area. She stressed the intent of the proposed development would be to keep the area rural in nature, buffer the traffic from Lone Mountain Road and correct drainage issues. She provided conditions discussed at neighborhood meetings which the residents would support the development such as:

- All single-family homes
- Minimum 10,000 square-foot lots
- Equestrian trail with three feet of landscaping, seven foot equestrian trail, five-foot sidewalk, five feet landscaping, then the curb along Lone Mountain Road, Allen Lane and Willis Street
- White three-rail fence along Lone Mountain to create a rural feel
- Disclosure regarding farm animals in the area
- No interior street lights, only coach lights on the homes
- Limiting street lights on the exterior areas complying with rural standards
- Minimum 8 foot wall along northern property line between Willis and Allen
- No poisonous plants on perimeter landscaping due to the animals in the area

Chairman Kraft opened the public hearing.

Mr. Wade, 1804 Castleberry Lane, North Las Vegas, stated he supported development and beautification of the area.

Ms. Allen thanked the residents for meeting and working with the developers and sharing their concerns. She read a petition into the record that was previously circulated by the applicant in support of the development. She clarified that homeowners in the development would be allowed to have at least one animal on the lot.

Commissioner Berrett thanked Ms. Allen for her efforts regarding the development. He stated he supported new development but it needed to be the right development for the area. He noted that the residents would support the development but were opposed to the smaller lots. He hoped that the developer could take the concerns into consideration and come back with more appropriate ranch style lots.

In response to a question from Commissioner Shoaff, Director Jordan noted that the property referred to in the center of the development near the well was City-owned property and the City did not want to sell the property. He stated he would contact Public Works to clean up the property. Commissioner Shoaff questioned if the property would be fenced off to avoid future issues and who was responsible for the street improvements. Traffic Engineer Reesman stated if the development moved forward, the developer would be responsible for half-street improvements.

Chairman Kraft thanked Ms. Allen for her presentation and thanked staff for working with the developers. He also thanked the residents for their participation. He was in support of developing vacant land and bringing in revenue but he felt that the rural preservation area should be maintained.
