STAFF COMMENTS AND BACKGROUND INFORMATION:

The Redevelopment Agency has been working with the developer of a residential project located across the street from City Hall on an approximately 7 acre parcel, APN 139-23-111-004, adjacent to Maya Cinemas and a new charter school planned to open for the 20-21 school year. The Mixed-Use project is planned for five stories, 262 units within the City's downtown core. The building design plans are for approximately 10,000 square feet of commercial on the ground floor with residential. The request for the waiver is to allow for flexibility on the commercial space based on market conditions. At the time of development and leasing, if there is no demand for this type of commercial use with creditworthy tenants or any commercial tenant interest, this would allow the project to have residential on the first floor. The determination of the mix of uses throughout the building is subject to review and approval from the economic development division.
