**STAFF COMMENTS AND BACKGROUND INFORMATION:**

In 2019, City staff began working with SNWA and their Integrated Regional Policy Advisory Committee to develop projects in North Las Vegas as part of SNWA's Major Construction and Capital Plan (MCCP). The committee worked diligently to evaluate project and program elements and included the Garnet Valley Water System and the Garnet Valley Wastewater System Projects in their final recommendation which was approved by the SNWA Board in September 2020.

This interlocal outlines the scope, timing and other performance commitments by the City and SNWA for the design and construction of a 20 MGD water supply and sewer collection system for Garnet Valley with an estimated value of \$250 million.

Staff recommends approval of the Interlocal Infrastructure Agreement with SNWA.
