STAFF COMMENTS AND BACKGROUND INFORMATION:

On March 3, 2021, City Council approved a services agreement with Eaton Corporation for the replacement of one of the six blower motor starters at the Water Reclamation Facility ("WRF"). Staff has evaluated and determined that it is necessary to replace two additional blower motor starters which are critical to the operation of the WRF. These starters are reaching the end of their lifecycle and are no longer supported by the manufacturer. The potential for an unanticipated failure leaves the WRF operations vulnerable to long downtimes and process interruptions.

Staff recommends that the City Council approve the Purchase and Service Agreement with Eaton Corporation in the Amount of \$129,267.45 for the Replacement of Two Blower Motor Starters at the WRF using the sole source exception under NRS 332.115(1)(a).
